# MAINTENANCE

*Operating a fleet of over 200 yachts, entrusted to us by their owners, leaves no room for improvisation. The condition of our fleet is at the heart of our concerns and guarantees a high-quality experience for our charter guests and profitability for our owners.*

Our main focus is to ensure that our fleet is kept in good condition and that its value is maintained throughout the program. Transparency and attention to detail are at the heart of all the maintenance work we do, with the ultimate objective of offering charter customers the luxury of enjoying yachts in spotless condition and allowing owners to exit the program at the end of the contract period with a yacht that still carries a high resale value.

Navigare boat owners expect stable profitability from us, which we can only guarantee by managing their sailing yachts and catamarans as floating assets, smoothly and without surprises. To further deliver on the promise of an excellent maintenance program, we need indicators that enable our teams to monitor the condition of the yachts and catamarans entrusted to us.

That's why we designed a customer interface that allows us and our boat owners to monitor the status of their yachts in real time. The Navigare Service Platform gives the owner access to their boat's technical file, providing a full-service history of the vessel and thus increasing the resale value of the yacht. Furthermore, the Service Platform doubles as a ticketing system, allowing the boat owner to add tickets for maintenance work that are automatically assigned to our team of technicians.

The collection of this important data generates traceability of interventions, giving the boat owner a full-service history of the vessel. This "Service Book" is vital to secure a high resale value of the yacht. Navigare Yachting's vessels have a low depreciation, all thanks to our commitment to managing and maintaining the worth of our boat owners' investments.

# HOLIDAY PROGRAM

## GET YOUR POINTS

# NAVIGARE YACHTING'S EVENTS

## SEA TRIALS

A few times a year, we arrange sea trial opportunities for potential clients as well as existing yacht owners to test sail a specific yacht model.

During these events, you'll find out for yourself what it's like to be a Navigare boat owner. You get to test sail different yachts, meet our staff, learn more about our ownership programs, and visit our charter base.

If you are already an owner in our fleet, you'll be able to attend our maneuvering courses. This gives you the chance to practice and explore your skills on many different yachts!

## YARD VISITS

Occasionally, we arrange exclusive visits to our yacht manufacturer's shipyards. On a yard visit, you'll get an insider's look into the yacht production process.

This is a unique opportunity for you to familiarize yourself with the yacht production, materials, and yacht brands, guided by a Navigare ownership manager.

Have a look behind the scenes, connect with your favorite yacht brands on a more personal level, and become a yacht connoisseur yourself!
