SAILING ADVENTURE
Thank you for your time and interest in our services.

Over the past 17 years, close to 250,000 sailors have sailed one of our Navigare yachts! Now with bases in nine different countries and a fleet of nearly 300 yachts worldwide, we hope to accommodate all your sailing wishes.

At Navigare, we combine the advantages of a larger fleet, like optimized processes and economies of scale, with the essential local experience from many different countries. You, as our guest, will always be at the center of our attention. Our exceptionally skilled staff will make sure you feel right at home on your chartered yacht.

We focus on the details. For example, in our Caribbean fleet, every single one of our catamarans is equipped with air conditioning and a generator; all of our yachts have teak in the cockpit for that enhanced luxurious feeling. The majority of our bases offers our All-Inclusive Pack with “Peace of Mind Guarantee” – it means you don’t have to pay any security deposit or deductible, and you’re never liable for accidental damages you may experience during your charter holiday.

Another example of our commitment to a flawless customer experience is the development of the Navigare app. It allows you to check-in ahead of time and enter your crew list, and notifies when your charter yacht is ready to board. Additionally, before booking your charter, you can experience all of our models by virtual tour on our website at www.navigare-yachting.com.

The core and heart of our company rests upon all our service-minded and hardworking team members, now 100 full-time employees and as many seasonally staff. It is thanks to their dedication and passion that we have enjoyed such growth and success.

We expect our guests will want to sail new destinations and access the latest models from the leading yacht builders, both monohulls and catamarans. So we keep on developing our offer in order to meet your expectations. Meanwhile, you will receive the very same top-notch service and quality from every one of our staff members, yachts, and charter bases. We will do all this...and a little more!

“Navigare necesse est, vivere non est necesse.”
– Pompejus, 56 B.C
Each and every member of the Navigare staff is hand-picked for their exceptional customer care skills and technical abilities to make you feel right at home on one of our luxury yachts.

The crew exclusively consists of experienced, passionate people who share great work ethics and enthusiasm for sailing. They are service-minded and guarantee that you have everything you need to fully enjoy your holiday.

On location, our local staff will be available to offer any kind of assistance. Whether you are in need of technical service or if you would like some exclusive insider information about the area, they will be happy to help!

Croatia’s coastline has a Mediterranean climate with very mild winters and hot, sunny summers. The inland has a moderately warm and rainy continental climate.

With an impressive average of 2,600 hours of sunshine per year, the Croatian part of the Adriatic Sea is one of the sunniest in the Mediterranean and the average summer temperatures range between 25 °C and 27 °C.
Trogir is one of the best-preserved medieval towns in Europe. It is situated between the cities of Split and Šibenik and lies in the surrounding area of Split airport. Take some time to explore narrow cobblestone streets with their wonderful little restaurants, local bars and small boutiques.

Not only is the Yacht Club Seget in Trogir among the region’s newest marinas, but it is also the most modern yacht club in the area. Experience fine dining and cocktails as well as exceptional service in the marina restaurant. You will also find a beautiful outdoor terrace with swimming pool in the marina.

If you prefer a ‘one-way’ charter, we highly recommend the city of Dubrovnik in the south of Croatia as your starting or ending point.

Take your time to explore this UNESCO World Heritage Site with its beautiful marble streets, the old harbour and impressive churches. The ancient walls that were built to protect the city from intruders are wonderfully preserved and exude the history of the rich Byzantine Empire. The sense of awe never fails to descend when you set eyes on the beautiful old town.

**DUBROVNIK IS NICKNAMED “PEARL OF THE ADRIATIC”**.

The charming city of Šibenik is known for its medieval fortresses, national parks, the UNESCO-protected St James cathedral and Krka Waterfalls. According to National Geographic, the nearby-situated Kornati archipelago is the best sailing region in the world.

You can choose Sibenik as your starting or ending point for your charter holiday. The unique archipelago landscape sharply contrasts green vegetation, deep blue sea and bright blue skies with many charming harbors and relaxing bays.
Croatia’s scenic Adriatic Sea coast is scattered with more than a thousand islands. Some are entirely covered with lavishly green vegetation; others mainly consist of impressive rock formations. Some of them are uninhabited; others have emerged into vibrant party centres buzzing with hospitality and entertainment. However, one thing they all have in common is that they are exceptionally beautiful.

You will hop from one gorgeous blue bay to the other. You will dive in the clearest waters and enjoy the warmth of local hospitality in the picturesque island towns.

The Croatian cuisine is pure and down to earth, dominated by fine meat and fresh fish. Make sure you have enough time to explore amazing hidden outdoor bars with sunbeds scattered over impressive rocks. Enjoy a refreshing drink whilst listening to some relaxing tunes playing in the background. Life is good!
You will discover picturesque villages with great local hospitality and experience the friendly atmosphere of everyday Greek island life. Listen to the whispers of ancient heroes, dance the sirtaki and indulge in the famous Greek cuisine with specialties such as souvlaki, moussaka and kleftiko.

If you are planning a shorter charter of one week, we recommend you focus on a specific area of your choice since the distances and sailing times are fairly long. A two-week charter will of course give you the opportunity to explore more of the Greek wonders, but will also allow you to spend more time in your favorite spots.

The ideal time to sail around the Greek islands is from April to October with the high season stretching from June until the end of September. Needless to say, these are the warmest and busiest months. If you are longing for some peace and quiet, the before and after high season weather is still very pleasant and there are fewer visitors.
Greece
With the wind in your back, Greece is yours
The predominantly Mediterranean climate with many hours of sunshine throughout the year is perfect for sun seekers.

The winters are fairly mild in the south of Greece and its islands, but the northern regions and mountain areas are much colder and often snow-covered during the winter months.

From November until March there might be some rainfall, but Greek summers are hot and dry while the Meltemi northern winds offer some relief from the heat.

July and August are the hottest months with temperatures easily reaching 30°C to 35°C.
Turkey

THE ROUTES ARE PERFECT FOR FAMILIES WITH CHILDREN
SAILING ROUTES

Sailing the clear blue waters of Turkey’s Lycian or Carian Coast is an experience that every sailor should be lucky enough to enjoy. It is a magical place where you can recharge your batteries, disconnect and surrender to its sublime surroundings and timeless ambience. Over the course of Turkey’s long and beautiful summer, good winds and moderate seas make the perfect conditions for a relaxing sailing holiday.

Turkey is a place where east meets west and offers everything from ancient culture and history, bustling towns with sensational cuisine to sleepy fishing villages and deep-water bays luring you to take a swim.

Göcek is located just 25 km away from Dalaman International Airport and has become one of the most attractive boating spots in Turkey. Dotted with hidden islands, secluded beaches and many coves and bays, its land and clear watered seascapes are irresistible.

The well-equipped, modern marina is situated in a beautiful setting surrounded by charming pine trees and beaches with crystal clear water that call for a stroll and a dip. It furthermore offers a nice restaurant, Turkish bath & sauna, boutiques, toilets and shower blocks, villa accommodation and Wi-Fi.

If you need to go grocery shopping we have a free service to and from the supermarket in Göcek for each boat guest. You can also take a taxi boat to a small minimarket across the bay but this one offers a lot less commodities and is more expensive.

In average-class restaurants, a main course is about 15-25 lira. The mooring of your yacht on a restaurant jetty is usually free if you will eat there. The jetty is a small pier often without access to water and shore power. On larger docks with water and power access, the cost goes up to about 35 lira per night. Many small restaurants with their own jetty are pretty expensive, so the cost is about the same overall if you dock at a larger dock and opt for a nicer restaurant in town.

The climate in Turkey is diverse and ranges from Mediterranean to Continental. Summer temperatures in some parts of the country reach +40°C. The coast bordering the Aegean and the Mediterranean Sea has a mild Mediterranean climate and those coastal areas on the Black Sea have a temperate Oceanic climate.
VIVA ESPAÑA!

Spain is a magnificent Mediterranean sailing destination offering you a chance to explore an adventurous country famous for its flamenco music, fiestas, delicious cuisine, notably their tapas and paella, remarkable architecture, vibrant nightlife and much more. Sail along the Spanish coast and explore bustling seaside cities, hidden coves and charming fishing villages.

The Balearic Islands, with famous islands like Mallorca, Ibiza and Menorca, are ideal for island hopping. They form one of the most diverse and gorgeous archipelagos in the world. Mallorca, where our base is located, abounds in white sandy beaches and boasts crystal clear blue water, resulting in the most relaxing vibe you can imagine.

When not sailing or swimming, dive into the best food from the Balearic menus, mainly consisting of seafood and seasoned meat, find a local "Pastissera" with the sweetest of sweets, or go shopping in the cosy streets of Palma. Our base is located close to Palma along Mallorca’s central south coast.

The weather in the Mediterranean parts of Spain, including the Balearic Islands, is characterised by a moderate Mediterranean climate with hot and dry summers and mild winters. Summer in Mallorca starts at the beginning of June and brings plenty of sun with temperatures from 27 degrees Celsius to above 30 in July and August.

Coastal towns enjoy 300 days of sunshine annually, with barely any rainy days. All in all, expect clear sky, lots of sunshine and warm sea temperatures.
BELLA ITALIA

There are few places in the world offering such a diverse plethora of experiences as Italy. Apart from being the country with the most UNESCO World Heritage Sites on the planet, it also boasts sunny islands, picturesque landscapes, fierce volcanoes, vibrant cities, lovely beaches and so much more.

Italy is a wonderful country for sailing, with a long maritime tradition dating back to the Roman times.

Sailing Sardina is the best way to discover its most secluded creeks and beaches. You’ll enjoy lots of great cruising and snorkeling, with miles of beautiful white sandy beaches, sheltered anchorages, countless islands and many more attractions like charming traditional fishing villages.

Aside from sailing, let's not forget about the world-renowned food one can only find in Italy! You’ll enjoy the finest of fresh Mediterranean cuisine and Italian wine.

Italy’s coast experiences a typical Mediterranean climate characterized by hot summers, very pleasant temperatures in spring and autumn and mild winters.

The weather on the islands, such as Sicily, Sardinia and the Aeolians, is similar to that of the southern coastline, with very long and dry summers filled with hot sunny days, occasionally interrupted with refreshing gusts of wind in the afternoons. In summertime, temperatures on the coast and islands can exceed 35 degrees Celsius and sea temperatures range between 21-25°C.
Caribbean
WHAT SAILING DREAMS ARE MADE OF
Unspoiled pristine beaches? Check! Turquoise waters? Check! Excellent restaurants, laid-back vibes and superb snorkeling? Check, check, check! The luxurious British Virgin Islands consist of over sixty islands located in the north-eastern Caribbean Sea and are all equally breathtaking. This, together with warm tropical weather year-round, consistent trade winds and line-of-sight navigation, makes it by far one of the best sailing locations in the world.

Family-friendly, relaxing and absolutely stunning.

Experience the freedom of sailing along the idyllic Sir Frances Drake Channel at your own pace. Move between the larger islands such as Virgin Gorda, Jost van Dyke and Tortola. And be sure to take short breaks at the smaller and more intimate islands.

Wherever your sailing takes you, you’ll enjoy wonderful Caribbean cuisine. Anegada’s famous lobster specialties are not to be missed! While in the BVI, you’ll also get to witness the incredible beauty of the underwater world with a huge variety of tropical fish and lush coral reefs.

Your perfect sailing charter in the BVI awaits! Plan a long break or a quick getaway now with Navigare Yachting. Choose from a wide selection of best-in-class catamarans, monohulls, with or without a hired crew for the more experienced sailor.

Our professional reservation team will assist you in designing the charter vacation that suits you best.
Caribbean
BRITISH VIRGIN ISLANDS
NATURE'S LITTLE SECRETS
What is important to keep in mind is that the Caribbean high season takes place during the winter months. Therefore, the busiest and most popular time to visit the British Virgin Islands stretches from mid-December until mid-April when the weather conditions are optimal.

Pre-high season begins around mid-November with daytime temperatures reaching 30°C and around 24°C at night.

The summer starts in June when temperatures are higher, exceeding 30°C during the day and dropping to the high 20’s °C at night.

Please note that the humidity factor is low due to trade winds from off the African coast that blow nearly all year round.

The Caribbean hurricane season lasts from July until October.

In the unlikely event of a hurricane heading directly for the islands, we may need to call your boat back in. Under these circumstances, we will arrange a hotel at your expense for which you will either be refunded or offered a credit for the time lost on the boat.

When the weather conditions allow it, you will be able to continue the trip where you left off.

Newport is warm from late spring to early fall (May–Sep), the peak travel period. And at the hottest time of year, Newport enjoys moderate temperatures, thanks to its ocean beach setting.

THE OCEAN STATE

Rhode Island has one of the most beautiful, rugged, and dramatic coastlines in the United States, and its connection to the water is why it’s nicknamed “the Ocean State.”

Narragansett Bay is the center of local activity: its 30+ islands are a delight to explore, with warm & gentle breezes, protected coves and harbors, and wonderful sights to see.

If you’ve been aching to explore one of America’s premier sailing destinations, Navigare Yachting is ready to help you! Sail Newport and see firsthand why the New England coast is an iconic sailboat charter destination.

Check out our fleet to learn more about our available boats – we make booking online simple and convenient, with our exclusive Newport Sailing Holidays Payment Plan, which allows you to pay for your sailing vacation in up to six monthly installments.
SAILING IN THAILAND
INFORMATION ABOUT THE ISLANDS

Dreamland of Thailand is the perfect destination for adventurers and the easy going, beach-loving traveller. The long coastline and numerous divine islands all boast remarkable stretches of white sandy beaches lined with seductively swaying palm trees and a turquoise sea. Enjoy this vibrant Asian jewel with its breathtakingly inspiring nature, glittering temples, exotic food and friendly people.

Phuket is located 800 km south of Bangkok, 960 km north of Singapore. Both cities are connected to Phuket Airport with 20 daily direct flight in just 1 1/2 hour trip.

The route that we suggest is mostly focused on the islands south and west of Koh Lanta that are well known for their huge diversity of marine life and long unspoilt beaches. Make sure to visit Phang Nga Bay, the Phi-Phi islands and the Butang Group where you will have the chance to go out to the best snorkelling locations.

The Phang Nga Bay just east outside the base in Yacht Haven is impressive due to extraordinary shapes of massive limestone rocks rising high from emerald waters. The most famous among them is Ko Tapu or the James Bond Island, which appeared in the 1974 “The Man With the Golden Gun” movie, gaining immense popularity.

The Krabi area with Ao Nang, Phra Nang and Railay beaches is astonishing thanks to the green jungle that leads down to shiny white beaches and rock formations with many accessible caves to explore.

Koh Phi Phi is an amazing island with dramatic rocks rising over the bay. You can relax on the beach or enjoy magnificent food at one of the island’s numerous restaurants.
The largest part of Thailand has a tropical wet and dry or savannah climate while the south of the country and part of the east has a tropical monsoon climate. The best time to visit is between November and February when there is very little rainfall and it is not overly hot. In the southern part of the country temperatures are more even year-round as it is closer to the equator. In Thailand you don’t need to worry about tropical storms, hurricanes or cyclones. The average temperature varies between 24° and 30° C.
Sweden

In the summer
The days never end
**The weather**

Swedish climate ranges from oceanic to continental and subarctic climate. However, thanks to the Gulf Stream, the country is overall warmer and drier than it would be expected given its location. Summer temperatures in Stockholm are between 20 and 25 °C, and days are 18 hours long in the period between mid-June and mid-August.

---

**SWEDISH ARCHIPELAGO**

There is nowhere else on Earth where you can find such abundance from natural islands so close together. The surrounding fairy-tale like wilderness will give you an instant feeling of taking part in an Astrid Lindgren movie. No surprise that part of the Stockholm archipelago has been nominated for a World Heritage site and National Park status. The Swedish archipelago also offers lots of great restaurants, bars and hotels.

The Oceanis 46.1 boasts all the features of a large cruising yacht, with a rare balance between elegance, usable space and performance. Her stepped hull opens an incredible amount of space inside and yet her seakeeping performance remains impressive.

With a longer mast, by one meter, a sail area increased by 28%, Harken deck fittings and a deep lead-bulb keel to reduce drag, she is all set to offer unique cruising sensations. Easy to sail, easy-going and fast, the Oceanis 46.1 is unique in many ways and will appeal to a wide range of crews.

An incredibly efficient deck plan makes her wonderfully safe and easy to use. The furling mast, self-tailing jib, and all the halyards and sheets brought back to a single winch at each of the helm stations make maneuvering simple when sailing short-handed.

The Oceanis 46.1 has a very spacious cockpit with space for 8 guests around a large table. Generous hull port holes bring a considerable amount of natural light right into the center of the boat.
The new generation of Jeanneau’s Sun Odyssey line reflects harmony on board, and this balance stems from a clever and ergonomic design.

With her striking visual identity, rigging and hull design, she provides superior performance, and delights with her elegance, from the beveled shape of her hulls, to her generous volumes and panoramic views.

The exterior of the Lagoon 50 is both comfortable and highly functional. A flybridge with two secure accesses and a helm station provides perfect visibility. A second cockpit for further enjoyment of the foredeck has dual function: seating or deck chair position, flush with the forward trampoline.

The spaciously designed layout reveals innovative architecture where every detail has been planned to create a warm, relaxed atmosphere. An innovative interior design, with a new, elegant, and elaborate wood finish is customized for every client.

An innovative saloon concept on two levels, providing two distinct but communicating areas: a large galley that opens onto the cockpit on one side, and a slightly elevated lounge area for enhanced panoramic vision, which can easily be turned into a dining area if needed.

Combining modular front and aft cockpits, a complete cooking area at the back, a practical and safe access to the sea, and impressively large volumes in the salon.

With its double access, the flybridge is perfectly suited to both maneuvering and relaxing. The center helm station offers protection and visibility. The interior design embraces a refined, elegant and functional style, while every single cabin adopts impressive volumes – in particular the front cabins, where the bed is now as comfortable and spacious as the aft cabins.

The amazing life quality onboard is guaranteed by careful finishing and interior lighting. No borders between inside and outside thanks to a large sash bow window in the front: a great connection between front cockpit and salon.

Seaworthiness and performance are key words on the 46, with an optimized sail plan, and her mast moved farther aft. The Lagoon 46 is sure to deliver an impressive performance, not just at the anchor, but also at sea!
