- March through May is the hot season, usually dry and very warm.

- June through October is the wet season, with frequent monsoon activity. Winds blow from the southwest and often clear the skies and open up into gorgeously sunny days and brilliant sailing.

- November through February is the cool season, with moderate weather and easy sailing. The most popular season to sail in Thailand.

Sailing in Thailand is really easy and relaxing: the waters are well charted, tidal ranges are small, there are no strong currents, and there is an abundance of sheltered anchorages with excellent holding ground.

# OCEANIS 46.1

The Oceanis 46.1 boasts all the features of a large cruising yacht, with a rare balance between elegance, usable space, and performance. Her stepped hull opens an incredible amount of space inside and yet her seakeeping performance remains impressive.

With a longer mast, by one meter, a sail area increased by 28%, Harken deck fittings and a deep lead-bulb keel to reduce drag, she is all set to offer unique cruising sensations. Easy to sail, easy-going and fast, the Oceanis 46.1 is unique in many ways and will appeal to a wide range of crews.

An incredibly efficient deck plan makes her wonderfully safe and easy to use. The furling mast, self-tailing jib, and all the halyards and sheets brought back to a single winch at each of the helm stations makes manoeuvring simple when sailing short-handed.

The Oceanis 46.1 has a very spacious cockpit with space for 8 guests around a large table. Generous hull portholes bring a considerable amount of natural light right into the center of the yacht.

# LAGOON 46

The new Lagoon 46 is quite possibly the best blend of all the attributes that make Lagoon catamarans some of the most popular sailing yachts in the world, striking the perfect balance between the different living areas.

Combining modular front and aft cockpits, a complete cooking area at the back, a practical and safe access to the sea, and impressively large volumes in the salon.

With its double access, the flybridge is perfectly suited to both manoeuvring and relaxing. The center helm station offers protection and visibility. The interior design embraces a refined, elegant and

functional style, while every single cabin adopts impressive volumes – in particular the front cabins, where the bed is now as comfortable and spacious as the aft cabins.

The amazing life quality onboard is guaranteed by careful finishing and interior lighting. There are no borders between inside and outside thanks to a large sash bow window in the front: a great connection between front cockpit and salon. Seaworthiness and performance are key words on the 46, with an optimized sail plan, and her mast moved farther aft. The Lagoon 46 is sure to deliver an impressive performance, not just at the anchor, but also at sea!

The Oceanis Yacht 62 is designed to offer incredible comfort at anchor or under sail. Her enormous cockpit offers a variety of spaces each promising a feeling of well-being.
