

**Navigare Yachting's 7-day suggested sailing route: Göcek - Fethiye**

<b>DAY</b>	<b>DESTINATIONS (from – to)</b>	<b>DISTANCE</b>
<b>0 Saturday</b>	Göcek (check-in)	
<b>1 Sunday</b>	Göcek – Kapi Creek	8 NM
<b>2 Monday</b>	Kapi Creek – Ekincik	29 NM
<b>3 Tuesday</b>	Ekincik – Gemiler	34 NM
<b>4 Wednesday</b>	Gemiler – Kizikuyruk Koyu	13 NM
<b>5 Thursday</b>		
<b>6 Friday</b>	Fethiye – Wall Bay	15 NM
<b>7 Saturday</b>	Wall Bay - Gocek	9 NM

Situated on Dalaman-Fethiye highway, Göcek is a very important yacht point englobing six marinas: Club Marina, Skopea Marina, Municipality Marinas, Marinturk Göcek Village Port, Marinturk Göcek Exclusive and Port Göcek Marina.

### **Day 1, Sunday: Göcek – Kapi Creek (8 NM)**

In the southwestern part of the channel, between Domuz Adasi and the mainland, lies a small but charming Kapi Creek. It is well secluded and often called *Four Fantbom Cove*. Within walking distance is located another beautiful cove surrounded by untouched nature, the Ragged Bay.

### **Day 2, Monday: Kapi Creek – Ekincik (29 NM)**

In the southwestern Turkey, close to the Dalaman airport, among the hills, you will find Ekincik. This charming area is famous for its untouched beautiful nature: you can spend your time swimming in the clear sea or doing a walking tour. There you can also find a small harbour which connects Ekincik with Dalyan. Overall, it offers you a quiet ambiance and is a perfect getaway from the everyday commotion.

**Day 3, Tuesday: Ekincik – Gemiler Island (34 NM)**

Near the city of Fethiye, you will find the Gemiler Island. It is an island full of historical remains (mainly churches) and a beautiful nature surrounding the architecture.

**Day 4, Wednesday & Day 5, Thursday: Gemiler – Kizikuyruk Koyu (13 NM)**

**Day 6, Friday: Fethiye – Wall Bay (15 NM)**

Wall Bay will amaze you with its natural beauty and surrounding cliffs. We advise anchoring with lines ashore, after which you can enjoy an excellent gastronomy offer by the sea.

**Day 7, Saturday: Wall Bay – Göcek (9 NM)**

The perfect location and conditions of this 12 mile long bay allow you to achieve good speeds even without the normal wave action.
